THE FIRST 10X MULTIPLIER IN PICK-6 XTRA GAME HISTORY

TRENTON, N.J. (July 28, 2016) – For the first time in Pick-6 XTRA history, the New Jersey Lottery is pleased to offer players the opportunity to multiply non-jackpot prizes up to 10 times during the 10X Multiplier Promotion. By adding XTRA to any Pick-6 play during the special 10X Multiplier promotional period, August 1 through August 29, players have a chance to win ten times the standard prize amount when a 10X Multiplier ball is added to each of the nine scheduled XTRA drawings.

“The 10X Multiplier is an exciting new promotion for this long-standing game, offering Lottery players a chance to win larger Pick-6 prizes by adding XTRA,” said Carole Hedinger, Executive Director, New Jersey Lottery. “This is another example of how the Lottery is innovating customer-centric opportunities in its Draw and Instant Game offerings.”

XTRA was added to the Pick-6 game in January 2015 offering players an additional opportunity to win larger prizes with better overall odds. For $1, players can select their own numbers or ask for a Quick Pick. Players can add XTRA for $1 more per play, per draw. Pick-6 XTRA drawings are held every Monday and Thursday at approximately 7:58 p.m.

How XTRA works:
- Players can add XTRA for $1 more per play, per draw.
- XTRA multiplies non-jackpot prizes by the number drawn ranging from 2 to 5 and now up to 10 during the promotional period.
- Adding XTRA gives players a chance to win a $2 prize by matching just two numbers.
- XTRA improves overall odds to 1 in 7.
- The XTRA multiplier ball is drawn immediately following each scheduled Pick-6 drawing.
